RORY OUGH DEAD.
POPULAR CALIFORNIA HORSE.
BY THE NEW ASSOCIATED PRESS—A.M.
SACRAMENTO, July 10.—The two-year-old race horse, Rory Ough, the property of John Lodge, died in this city yesterday morning of catarrhal fever. He was one of the most promising two-year-olds in the State. He was raced around San Francisco during the racing season recently closed, and was a frequent winner.

BOSTON LOST IN TWELFTH.
BY THE NEW ASSOCIATED PRESS.—P.M.
PITTSBURGH, July 10.—Today's game was one of the most remarkable of the season. Boston lost in the twelfth inning by two wild throws, the first by Lowe and the other by Dineen, setting Wagner score. The attendance was 2600. Score:
Pittsburgh, 1; hits, 4; errors, 1.
Boston, 0; hits, 5; errors, 4.
Pitchers—Chesbro and Zimmer;
Dineen and Kittredge.
Manager—Nash.

ST. LOUIS-BROOKLYN.
BY THE NEW ASSOCIATED PRESS-P.M.]
ST. LOUIS, July 10.—St. Louis punched hits, with Brooklyn's errors in the first and second innings, making three runs, which brought them victory. The attendance was 2500. Score: St. Louis, 3; hits, 8; errors, 1. Brooklyn, 1; hits, 7; errors, 2.
Batters—Harper and Ryan; Hughes and McGuire.
Umpires—Schriver and Carsey.
CINCINNATI-NEW YORK.
BY THE NEW ASSOCIATED PRESS-P.M.]

THE NEW ASSOCIATED PRESS.—P.M.]
CINCINNATI, July 10.—Taylor had the locals at his mercy and did not allow a man to see third base, and only one man reached second. The at-bats were: 10; hits, 2; errors, 2.
New York: 3; hits, 4; errors, 2.
Batteries—Hahn and Bergen; Taylor and Bowerman.
Umpire—Behie.

PHILADELPHIA-CHICAGO.
THE NEW ASSOCIATED PRESS.—P.M.]
CHICAGO, July 10.—Philadelphia won in 4th inning by a 2-1 score.

of the opening innings today. The attendance was 600. Score:
Chicago, 2 hits, 2 errors, 2.
Philadelphia, 4 hits, 3 errors, 0.
Batteries—Waddell and Kilgus; Donahue and McFarland.
Umpire—Cunningham.

AMERICAN LEAGUE GAMES.
BALTIMORE BATTED WELL.
(BY THE NEW ASSOCIATED PRESS—P.M.)
WASHINGTON, July 10.—Foreman's split-edge pitching and his team's superior batting gave Baltimore today's

ame. The visitors bunched hits. The attendance was 2117. Score:
Washington, 1; hits, 3; errors, 1.
Baltimore, 5; hits, 11; errors, 3.
Batteries—Lee and Clarke; Foreman and Robinson.

PHILADELPHIA-BOSTON.
BY THE NEW ASSOCIATED PRESS.—P.M.
BOSTON, July 10.—Harry Davis batted himself into the chief place in the Philadelphia victory over Boston today, making five hits out of a total of eleven. The attendance was 4000. Score:

Boston, 6; hits, 11; errors, 5.
Philadelphia, 13; hits, 11; errors, 2.
Batteries—Lewis, Mitchell, Criger and
Schreck; Fraser and Powers.

CHICAGO-MILWAUKEE.
(BY THE NEW ASSOCIATED PRESS.—P.M.)
MILWAUKEE, July 10.—After fighting
for ten innings against strong odds,
Milwaukee succumbed in the eleventh.
The attendance was 1200. Score:
Milwaukee, 4; hits, 5; errors, 2.
Chicago, 5; hits, 16; errors, 4.
Batteries—Sparks and Maloney; Cal-
lahan and Sugden.

DETROIT-CLEVELAND.
(BY THE NEW ASSOCIATED PRESS-P.M.)
CLEVELAND, July 10.—Cleveland
lost again today. Cleveland's misplays
helped to defeat her. The attendance
was 800. Score:
Cleveland, 4; hits, 12; errors, 2.
Detroit 7; hits, 8; errors, 3.
Batteries—Dowling and Wood; Miller
and Buelow.

children whose blood is pure) are not nearly so likely to contract diseases peculiar to them, and when they do it is generally in a mild form. On the other hand, weak, emaciated and sickly ones seem to catch every disease that comes along. This is because their blood is lacking in all the elements necessary to sustain and build up the body. Poisons of every description accumulate in the system, because the polluted and sluggish blood is unable to perform its proper functions.

Such children need a blood purifier and tonic to give strength and vitality to their blood, and S. S. S., being a purely vegetable remedy, makes it the safest and best for the delicate constitution of children.

for a few days from San Francisco. The new Mexican College of Agriculture, by the board of regents. President Smith is an expert on sugar-beet culture. There is reliable authority for the statement that the Court of Appeals, which met at Albany, N. Y., yesterday, will more than cover the damage occasioned by wind and water from last night's storm. Four small houses were floated from their foundations and overturned. The tide was six feet higher than the highest tide since 1880, with the exception of the storm of last September.

ments with the Santa Ana Oil Company to handle its entire output. The Santa Ana company is now putting up a complete water plant, and making other improvements to be made.

Some of the improvements to be made in the Rice Cañon district. It is announced that the Dividend Oil Company will begin drilling its first well, and anticipates striking oil before the 700-foot level.

A rig of Boston is putting up a rig for well No. 5 on his lease in Rice Cañon, and will start drilling in about two weeks. Well No. 4 has been temporarily shut down at a depth of 700 feet, but drilling will be resumed soon.

HYDRAULIC DRILLING.

The civilization of centuries, under which western nations have grown

has now awakened in all its power in this Oriental England and it is alert with the novel impulse. It has the audacity and the fresh energy of youth. The applause of the Japanese, his fellow countrymen by Baron Tokutomi's purchase of Prof. Max Muller's library, is not yet died away. This purchase is a proof, yet the Japanese are not content with the past. The artists of the future are to be looked for in Tokyo, not in Oxford or Berlin.

The events of the new century is the spirit of the Northern, of the Englishmen of the days of Elizabeth, of the men who planned the conquest of commonwealths of a hundred years ago. More than this, it is the spirit of the English Renaissance, which applied to great purposes in what remains still, in a sense, virgin territory. The East is to be the theatre of enlightenment and with the instruments of modern civilization in hand. In succeeding pages I shall endeavor to deal with the new movement with accuracy as possible the results of my present studies of this new empire.

have been produced already and those that are soon to be produced by those remarkable people who are striving out so bravely and so confidently to achieve the peaceful conquest of the new lands and new markets of the Pacific.

Herbert Peary

EPWORTH LEAGUE.

The fifth international convention of the Epworth League will be held at the San Francisco July 18 to 21, inclusively. The league has been busily at work for over a year, endeavoring by means of illustrations, articles, and tracts, and papers and magazines, to awaken interest in California and in the combined convention; and it is believed that, as a result, at least twenty to thirty thousand people from beyond the

Rockies will visit the State during the present month.

ANOTHER NEW PROSPECTOR.
Another new company is now arranging to begin drilling for oil in the Newhall field. The new company is composed of Tacoma business men and will begin drilling a well in the now advertised Castaic Cañon district. This effort will be something in the nature of a prospect, as it will be the first well sent in to find oil there. There are rumors afoot that the P. C. O. company has made arrangements to drill a well in the same district.

- (3.) The motion of rotation of the earth is such that the length of the day is 24 hours.
- (4.) The obliquity of the ecliptic (23 deg. 27 min) varies at the rate of 1" per year.
- (5.) The eccentricity of the earth's orbit varies in cycles of long period.
- (6.) The longer axis of the earth's orbit revolves in a period of 100,000 years.
- (7.) The perturbations of the planets on each other, and of the planets on all the planets may be counted as a single effect, though it is, of course, the sum of several parts.
- (8.) The earth moves about the center of gravity of the solar system, not about the center of figure of the sun.
- (9.) The place of the planets changes as the configuration of the planets changes.
- (10.) The earth, with the whole solar system, has a motion of translation through space. The rate of motion is about seven miles per second.
- (11.) The earth rotates on the earth rotates is perpetually changing its place with respect to the surface of our planet.

This image is a dark, high-contrast, vertical scan, likely of a book cover or endpaper. It features a textured surface with a prominent vertical crease or fold line running down the center. A small, light-colored, irregular shape, possibly a piece of tape or a mark, is visible near the bottom center. The overall appearance is grainy and aged.

THE MINING FIELDS MINERS' ASSOCIATION RE-ELECTS PRESIDENT.

COL. THOMAS EWING AGAIN
CHOSEN TO THE POSITION.

Efforts to Be Made to Secure International Congress of Merchants Will Pledge Their Support—Red Cloud Makes a Strike.

At the first meeting of the new board of directors of the Southwest Miners' Association, held yesterday afternoon, Col. Thomas Ewing was re-elected president of that organization. Col. Ewing was the most prominent figure in the mining circles of the Southwest, and his election was unanimous. Col. Ewing was also re-elected as president of the association. A position he has held for the past year. J. J. Fay was elected second vice-president, and H. J. Jones was again elected secretary. It is the intention of the association to hold a strong fight for the 1912 congress, that is, if the city will do part to bring it here. So far there has been little enthusiasm shown out of the mining interests, and this is wholly pleasing to the association. For the purpose of ascertaining just what the attitude of the merchants is toward the congress, President Ewing has called a meeting for Tuesday evening, and has extended an invitation to merchants and others to attend. The advantages to be derived by the holding of so important a gathering here will be set out, and it is sufficient support is assured. The California delegation to the congress, to be held at Boise, Idaho, on the 23d inst., will go led by Col. Ewing. Fourteen states have also agreed to come, and the officers of the local association are now confident that the city will have more than a good fight.

It is up to the merchants," said Ewing yesterday, "and if they do not support us, we will not ask the convention to meet here. I believe they will, however, and am confident we will secure the prize."

GOLD AND SILVER.

The gold production of the United States for 1900, as reported in Mineral Industry, New York, had a value of \$1,000,000,000, a gain of \$5,000,000 over 1900.

Cabe mine, in the Big Bug district, at the 115-foot level in the new shaft. Shaft No. 2 in the Mingus Mountain copper property, in the Verde district, is down 231 feet, and the superintendent reports that the formation at that depth is such as to prove that they are going in the right direction. The Cocino Sun states that Dr. J. A. King, superintendent of the Verde Queen mine at Jerome, has completed arrangements for the construction of a 100-ton smelter in the Tonto Basin. That paper quotes him as saying: "We have 11,000 tons of ore in sight in our property—the Grand Prize. It is a silver-lead ore, carrying both gold and silver. We have traced the main ore body 300 feet. I do not know the width, although we have over six feet now exposed. In case I can make arrangements for teams I shall ship at least 600 tons per month to Flagstaff to be loaded on the cars. Five carloads of coke per week will be unloaded at this place for the smelter. The smelter will also do custom work."

A report from Dragoon about the workings on the Copper Crown mines in the Dragoon Mountains states that shaft No. 1 on the Copper Chief claim is down 235 feet, and that the tunnel on the Copper Queen is in a distance of sixty-five feet. The company is going to put in additional machinery to expedite development. A report received at the Los Angeles office of the Hiesher West Copper Mining Company from the superintendent of the mines at Hiesher, Cochise county, states that the shaft has reached a depth of 600 feet. A drift 300 feet has been run from the 300-foot level and another drift will be started from the 600-foot level. Water is increasing, but is being cared for.

NEW MEXICO.
A report from Santa Fe states that the Albemarle group of mines in the Cochiti district, owned by the Cochiti Gold Mining Company. The group consists of the Albemarle, Ontario, Pamlico and Huron lodes. The application for a patent was held up for three years owing to a dispute over a survey of the district. The survey was completed by the United States land office. The mine at Magdalena, Socorro county, is reported to be in a large body of fine ore, part of which has been shipped. The balance is being concentrated at the mine, the mill running night and day.

A large vein of rich gold ore has been opened up on the 4500 level of the Snake mine, in Hillsboro district. It is estimated that from \$150,000 to \$200,000 is in sight in the ground already opened up. The first-class ore is said to run from \$75 to \$100 per ton. Next, I believe they will pledge a better per ton in gold.

The Zuni Mountains, west of Albuquerque, are being prospected and tested for copper. The deposits discovered are said to be large, but low-grade and suitable for leaching.

SOUTHERN NEVADA.
F. O. Wilkinson, manager of the properties of the "East estate," in the Yellow Pine district, in southern Nevada, states that Sandy Camp, the central point of the district, is showing up under development some very fine gold and copper deposits. He says that what has held the camp back has not been the lack of transportation facilities, but that drawback was now likely to be soon disposed of. The California and Eastern Railway Company is working about three hundred men on its extension from Manvel and pushing things along in a lively manner. The workmen are now being paid \$12 a week, and the extension is being pushed forward.

POINTS OF EXCELLENCE.

A Few Reasons Which Are Rapidly Making a New Catarrh Cure Famous.

Stuart's Catarrh Tablets, the new Catarrh cure, has the following advantages over other catarrh remedies.

First: These tablets contain no cocaine, morphine or any other injurious drug and are as safe and beneficial for children as for adults; this is an important point when it is recalled that many catarrh remedies do contain these very objectionable ingredients.

Next: Being in tablet form this remedy does not deteriorate with age, or an exposure to the air as liquid preparations invariably do.

Next: The tablet form not only preserves the medicinal properties but it is so far more convenient to carry and to use at any time than is only a question of time when the tablet will entirely supersede liquid medicines as it has already done in the medical department of the United States army.

Next: No secret is made of the composition of Stuart's Catarrh Tablets; they contain the active principle of Eucalypti bark, red gum blood root and Hydrastis, all harmless antiseptics, which, however, are death to catarrhal germs wherever found, because they eliminate them from the blood.

Next: You can cure catarrh by local applications to the nose and throat, because these are simply local symptoms and such treatment can not possibly reach the real seat of catarrhal disease which is the blood; for this reason, inhalers, douches, sprays and powders never really cure

catarrh, but simply give temporary relief which a dose of plain salt and water will do just as well. Catarrh must be driven out of the system, out of the blood, by an internal remedy because an internal remedy is the only kind which can be assimilated into the blood.

Stuart's Catarrh Tablets do this better than the old form of treatment because they contain every safe specific known to modern science in the antiseptic treatment of the disease.

Next: The use of inhalers, and spraying apparatus, besides being ineffective and expensive, is a complete waste of money, while a complete treatment of Stuart's Catarrh Tablets can be had at any drug store in the United States or Canada for 50 cents.

A mother living in Charleston, Mass., the happy possessor of four children, writes: "Catarrh Tablets not only cured me of chronic nasal and throat catarrh, but they have saved me many an anxious night with my little ones."

Dr. J. J. Reilly, of Lexington, Ky., says: "I suffered from catarrh in my head, and throat every fall, with stoppage of the nose and irritation in the throat affecting my voice and often extending to the stomach, causing catarrh of the stomach. I bought a fifty-cent package of Stuart's Catarrh Tablets at my drug store, carried them in my pocket and used them faithfully, and the way in which they cleared my head and throat was certainly remarkable. I had no catarrh last winter and spring and consider myself entirely free from any catarrhal trouble."

EVENTS IN SOCIETY.

One of the most notable weddings of the season was solemnized yesterday at the home of Mrs. Arcadia B. de Baker in the Baker Block, when her grandniece, Miss Martha Scott, was married to George Douglas Wise of San Francisco. The service took place at noon and united in marriage two of California's most prominent families. The bride belongs to one of the oldest families of the State. She is the daughter of Mrs. Chalmers Scott, formerly of San Diego, but who has recently removed to Los Angeles with her family. Her grandfather on her father's side was the late Rev. William A. Scott of San Francisco, and her mother's father was Col. Caye J. Counts, who in his lifetime was prominently identified with the history of California. The bride is a sister of Mrs. Carl Kurtz of this city, and she is an accomplished and charming young woman. The groom is a member of one of the wealthiest families of San Francisco. His father is John H. Wise, who probably is a hundred years of age, and he is a descendant of the free library in the northern city, and was formerly director of ports. Mr. Wise, Jr., is a grandson of Gov. Wise of Virginia, and he is associated with his father in business in San Francisco. Notwithstanding the popularity of the young couple it was their wish to have their wedding celebrated quietly, and the ceremony was witnessed by

and Robert, left Saturday, July 6, on the "Owl" for an extended visit with relatives in Chicago.

William M. Hudinger left on the "Owl" Thursday evening for a business trip of several weeks in the East. Miss Grace Clark of San Francisco, formerly of Los Angeles, is visiting Miss Alice Moore of No. 1417 Santos street.

Mrs. H. G. Chase and children of Santa Barbara are stopping at Hotel Arcadia.

R. G. Brady and family of Tucson, Ariz., are arriving at Hotel Arcadia, Santa Monica.

Mrs. William Crothers left on the "Owl" last night for a two-months' visit with her parents in San Francisco.

PERSONAL.
J. Ross of Toronto, Can., is at the Van Nuys.

Marshall Stimson of Boston is a guest at the Van Nuys.

C. B. McCall of Philadelphia is a guest at the Hollenbeck.

William Loney is a New Yorker staying at the Van Nuys.

Frank A. Thomas of Cedar Rapids, Iowa, is at the Westminster.

William Menzel and Albert Menzel are at the Nadeau from Ventura.

THE BULLET OF MYSTERY.

Why Was Comport Shot and by Whom?

Young Milkman Victim of Assassin.

Only One Chance in a Hundred of His Recovery—Police Foiled.

Lionel H. Comport, aged 19 years, lies at the California Hospital, mortally wounded, the victim of one of the most mysterious shooting cases which has ever occurred in the city.

Although more than twenty-four hours have elapsed since the crime was committed, the police admit that they have been unable to make the slightest progress toward apprehending the person who did the shooting; nor have they discovered a motive for the crime.

Comport is a member of a well-known family, and has resided in this city fourteen years. He has always borne an excellent reputation, and has no known enemies. Since August 6 last year he has been employed at Star's Estrella dairy at almost the extreme western end of the city. Since he went to work there he has not lost a day, having been employed seven days in the week, and at times as much as eighteen hours a day.

As had been his custom for months, Comport left the dairy yesterday morning shortly after 1 o'clock to deliver milk to customers living in the southwestern part of the city. He drove two horses attached to an open wagon. For more than two hours he drove from house to house in that section of the city. His horses knew the route almost as well as he did, so often had he been over it with the same team, and they required little attention or guidance from him.

SHOT IN THE BACK. A few minutes after 3 o'clock he drove north on Toberman street from Twenty-third to Twentieth street, and turned west on that street. He was half reclining on the seat of the wagon, letting the horses go as they pleased. Just as he rounded the corner of Twentieth and Toberman streets he heard a shot fired within a few feet of him and the same instant felt a slight twinge of pain in the back. Turning in his seat he saw a man running away from him. Thinking the man had shot at and slightly wounded him, he never realizing that he had received what is almost certain to prove his death wound, Comport wheeled his horses and started after the fleeing man, whipping the horses into a run. The man was nearly half a block distant from him when he started, and he heard him continuing along the sidewalk, the man dashed into a yard and disappeared.

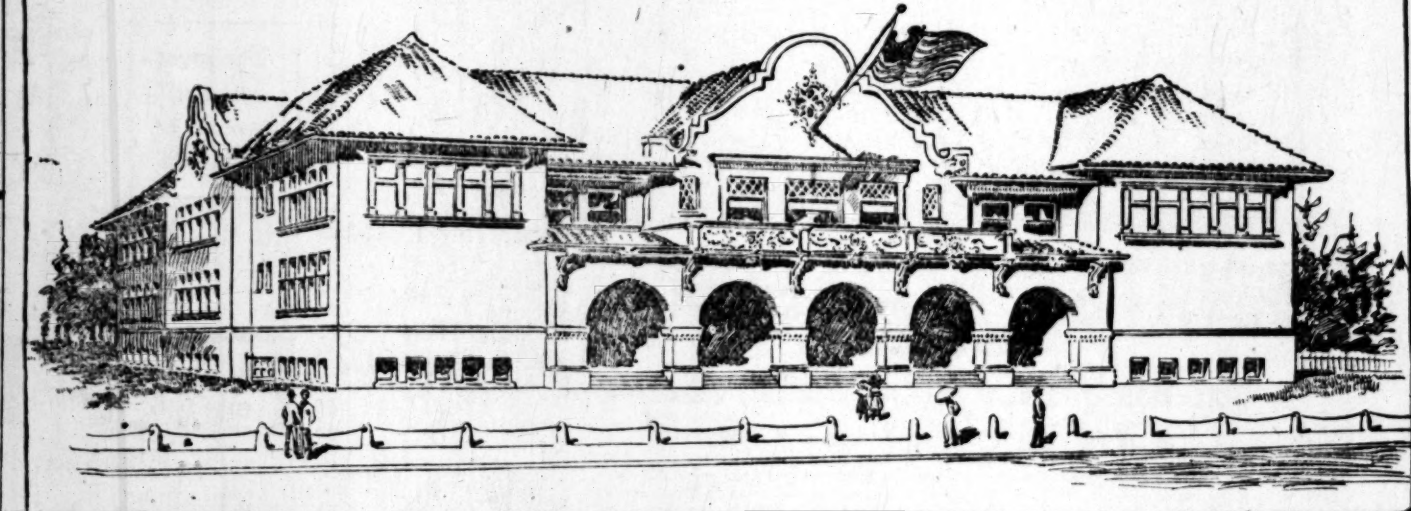

Comport at once turned his team, and returning to Twentieth and Toberman streets, delivered milk to two customers, one of whom was Stephen Bachelder, No. 2001 Toberman street, and the other living directly across the street. Until he got out of the wagon, he delivered his milk, did not realize that he was seriously injured, but that exertion caused him much pain. Again mounting his wagon he drove rapidly to Washington street in search of a policeman. He met Patrolman Broadhead from North and Cherry streets on Washington street and told him what had happened.

BROADHEAD'S STORY. "I had just left the signal box at Washington and Figueroa streets," said Patrolman Broadhead, "and walked west on Washington street nearly to Norwood when Comport drove up. He shouted to me that he had been shot, and with great difficulty I found that his abdomen was very much swollen. He was in a state of great excitement and was shouting to me to get a doctor for him. I placed him in the wagon and started to drive back to Figueroa street. When we reached Loveland avenue, Comport said he could go no farther, but I induced him to remain in the wagon until we got to Figueroa street, and there I sent for the ambulance. I placed Comport on the stretcher and rolled a blanket around him. I told him that he was dangerously ill and urged him to tell me all he knew about the matter. He could tell nothing except what he told repeatedly later in the day, and the story he told then is the one which I still tell, and I believe it to be the truth. While he was lying there he moaned several times. Who could have shot him? Why did he do it? Why did he shoot at me? Who was he and what reason they could have had? His sufferings were terrible, and when we placed him in the ambulance he was almost unconscious."

The ambulance was sent to the place as fast as the horses could run, and the wounded man was taken to the Receiving Hospital with all the speed possible. Police Surgeon Pierce for up to that time had made an examination of the wound. He saw at once that the man was fatally injured, and told him so, at the same time asking him for a statement of the shooting and particularly whether he knew who shot him. Comport stuck to his story which he had told to Patrolman Broadhead, and gave the particulars of the shooting as herein related. He said he did not feel much pain, and there was but slight hemorrhage from the wound. He was as cool and less excited than some of the officers who assisted in the examination of his injury.

As soon as the necessary preparations could be made he was removed to the California Hospital, and the physicians there set to work to perform the operation of laparotomy. In this operation Police Surgeon Pierce was assisted by Dr. Beckett and Cook. As the operation is one of great danger, another effort was made to induce Comport to make a final statement, but he refused to do so. He said he believed that he was not telling the whole truth, and asked him whether he had anything more to tell about the case. Comport again asserted that he did not know who shot him, and that he did not know what motive prompted the man to shoot him.

The Novel School Building to Be Erected in the Sixth Ward.

The above drawing shows the new Los Angeles school building that is to be erected in the Sixth Ward. The plot is located on the north side of Twentieth street, between Naomi street and Central avenue, has a frontage of 300 and a depth of 200 feet, and extends through the block to Walnut street. The principal entrance to the school grounds will be from Twentieth street, and the building, which will face toward the south, will front on Twentieth street, but an additional entrance to the grounds and to the building will be provided on Walnut street.

The plans and specifications were prepared by Architect C. H. Brown, and the work of construction will be under his supervision. They provide for a two-story building with basement and attic. The house will have a frontage of 125 feet by a depth of 125 feet, and will be built around an interior court that will be 22x12 feet. A corridor twelve feet wide will pass around the interior court, and entrances to the classrooms and to the auditorium, and the present church was built. It has sixteen members, a Sunday-school of 145, and owns the corner lot adjoining the church. The building will be four feet above the ground, and will be reached by cement steps which will extend parallel with the front of the structure, the full length of the porch. Each porch is connected with the corridors by a fifteen-foot entrance. To get into the building the pupils will march across the porch, through these entrances to the corridors, and thence to the classrooms. This method of entering the schoolhouse from the interior possesses many advantages, and is one of the special features of the building. The primary object of the interior court is to give additional light and air to the building, and in accordance with the recommendations of the best educational authorities.

On the first floor of the building there will be six classrooms, to each of which will be attached a teacher's room. There will also be a principal's room, a janitor's room and cloakrooms. The second story will be a duplicate of the first in the number and arrangement of its rooms. The schoolhouse will be supplied with return air electrical conduits leading from the principal's rooms to each classroom. The building is so arranged that light enters only from the east, and from the west, and the desks of pupils are so placed that the light in all cases will come in from over the left shoulder. This requirement is in accordance with the recommendations of the best educational authorities.

The school will be a principal's room, a janitor's room and cloakrooms.

The second story will be a duplicate of the first in the number and arrangement of its rooms.

The building is so arranged that light enters only from the east, and from the west, and the desks of pupils are so placed that the light in all cases will come in from over the left shoulder.

This requirement is in accordance with the recommendations of the best educational authorities.

On the first floor of the building there will be six classrooms, to each of which will be attached a teacher's room.

There will also be a principal's room, a janitor's room and cloakrooms.

The second story will be a duplicate of the first in the number and arrangement of its rooms.

The schoolhouse will be supplied with return air electrical conduits leading from the principal's rooms to each classroom.

will extend parallel with the front of the structure, the full length of the porch. Each porch is connected with the corridors by a fifteen-foot entrance. To get into the building the pupils will march across the porch, through these entrances to the corridors, and thence to the classrooms. This method of entering the schoolhouse from the interior possesses many advantages, and is one of the special features of the building. The primary object of the interior court is to give additional light and air to the building, and in accordance with the recommendations of the best educational authorities.

Riverside and San Bernardino Counties: News of Their Towns.

OFFERS FOR PROPERTY IN SAN BERNARDINO.

PASADENA MEN SAID TO BE AFTER THE BUSINESS CENTER.

Philippine Situation and Aguinaldo as Sided Up by a Returned Volunteer. Strike of Hot Water in a Well—Notes and Personal.

SAN BERNARDINO, July 10.—[From The Times' Resident Correspondent.] If several big real estate deals now pending go through, things will be doing pretty good in this section of Third street. Thomas Early, a real-estate man of Pasadena, has paid several visits to San Bernardino during the past month. On his last trip, a few days ago, he was accompanied by two Pasadena capitalists, the result being that offers have been made for some of the best business property in the city, including the St. Charles Hotel, for which \$250,000 has been offered. For the property extending east from the hotel, on the north side of Third street to the corner of E street, \$300,000 is offered. All of this property is owned by John Anderson, Sr. For the property on the opposite side of Third street, extending east from the Commercial Hotel to E street, and including a large frontage extending south on E, \$75,000 has been offered. The property is owned by John Ward, who is said to have made an offer to sell for \$85,000, and given the would-be Pasadena purchasers ten days in which to close the deal. It is understood that Mr. Anderson has been given thirty days to consider the offer made to him. If Mr. Ward does not sell, he will proceed without delay to erect a modern two-story business block on E street, south of the European Hotel, which stands on the southwest corner of Third and E streets, and will extensively improve the last-named property.

Anderson today denies that negotiations are pending with Pasadena capitalists, but, in a letter to The Times, he says that he has paid frequent visits here in the interest of the would-be purchasers, and it is generally believed that offers for the property have been made practically as stated.

AGUINALDO SIZED UP. Mark Hawley has returned from Manila, and is visiting friends here, after serving with Col. L. F. Smith, United States Volunteers, in the Philippines. He left this country as a private, but was promoted to the rank of corporal. He thinks the Philippines is a good country to make money in, and says the climate is not as bad as it is generally believed to be. He believes the trouble will continue for some time, although most of the natives are in sympathy with the United States. Aguinaldo, he says, made money out of the war, and it is the opinion of the American soldiers that the insurgents leader carried on the war for personal profit rather than because he was actuated by patriotism or love of country.

HOT WATER STRUCK. While drilling for water on the Riverside Trust Company's land, a few miles south of San Bernardino, a strong stream of hot water, with a flow of fully ten inches, was struck today.

PERSONAL MENTION. Miss Ellen Sullivan is at Santa Monica for the summer.

Miss Mabel Isom of Los Angeles is visiting relatives here.

Mrs. W. S. Harris is visiting friends at Santa Ana.

Mrs. G. R. Chapman and daughter left yesterday for Portland, Or.

Mr. and Mrs. J. W. Stevenson left today for San Diego, where they will spend the summer.

Mrs. F. M. Towe and children are at Redondo for an extended stay.

Mr. and Mrs. Eugene Patton are guests at the home of Mrs. Etta Patton.

Miss Julia Madere left yesterday for Cleveland, O.

Stanford C. Hooper, son of W. S. Hooper, left yesterday for Annapolis, Md., where he will enter a school preparatory to taking a cadetship.

Miss Olive Schermerhorn is at Long Beach.

R. B. Harris is visiting friends in Los Angeles.

Mrs. A. L. Drew and Miss Clara Lawson are in Santa Monica.

Judge F. F. O'Neil of Department One of the Superior Court is holding court in Los Angeles.

The newly-elected officers of Valley Lodge, K. of P., were installed last evening by Deputy Grand Chancellor F. P. Meserve of Redlands. It is proposed to establish a lodge of the Uniform Rank of the order here.

Judge Lucien Shaw of Los Angeles is presiding in Department One of the Superior Court, hearing testimony in the suit of Case vs. Olney, which was brought to establish an option to buy some ten acres of land near Highland.

REDLANDS. July 10.—[From The Times' Resident Correspondent.] N. W. Lamb, a carpenter, became insane last night, and started on a kidnapping expedition, the object of his attention being Miss Mabel Watson, a pretty nineteen-year-old girl who works in her mother's lodging-house over the post office.

He found the girl in the kitchen, closed the door and said: "I've come after one of your daughters. I want the oldest one, Mabel. I am worth \$50,000, and I'm going to Buffalo on a double-seated sleigh with her tonight. Where is she?"

Lamb's demeanor frightened Mrs. Watson, who thought he was drunk. She managed to tell him, however, that her daughter was out. Lamb did not believe her statement, and went to the girl's room, searching it. The girl was in the dining-room, and evaded him. Lamb finally left.

After more searching on his wheel the crazy man disappeared. At 8 o'clock he showed up again at the Watson place, and the girl was hidden in another room. Mrs. Watson called to the room formerly occupied by Mabel Watson. Finding this empty, he made a thorough search. He began shouting and violence, and Mrs. Watson had difficulty in quieting him. She eventually convinced him that the girl was not in the house, and he left.

Once on the street Lamb's vagaries took a new turn. He imagined that he owned the town, and now that he was free, he intended to do as he pleased. He entered Thomas Cooper's cigar stand, and in spite of the resistance of the attendant, took a number of boxes of cigars and distributed them gratuitously among bystanders. Then he was arrested.

Lamb made a statement that he had been told by a man named "Tommy" that the city was for sale, and that he was to be the owner. He was taken to the Sheriff's office this morning for examination as to his sanity.

Lamb is about 33 years old, and is not known to have any relations near Redlands. The only reason assigned for his sudden lapse into insanity is cigarette smoking, for which he had a great passion.

DAVIS ACQUITTED. Jack Davis, arrested recently for violation of the prohibition ordinance of the city, was acquitted in Judge Warren's court this morning. It took the jury only long enough to elect a foreman and take a ballot.

The arrest came about through a man telling the City Marshal that he "bought the best beer he ever drank" at Davis's place, whereupon the officer once arrested both. The testimony went to show that the beer was "temperance beer," and while it tastes like beer and looks like beer, is yet innocuous as soothing syrup as far as a jug is concerned.

The case against Mrs. David Davies has not come to trial.

REDLANDS BREVIETTES. A plague of typewriter and book agents has struck Redlands with more aggravated persistence than the hot wave. Business men are complaining of the pest.

Dr. C. A. Sanborn's wife and daughter left yesterday for an extended eastern visit. They will go to the exposition here returning.

Rain has been falling quite heavily in the mountains north and east of town today, and the heat is not nearly so great.

Miss Myrtle Gilman, a graduate from the High School this year, will teach at the Redlands school.

Dr. William Smith has returned to Oak Glen, where he will spend the remainder of the summer.

H. C. "Flash" McNeill and wife have gone to Catalina for a vacation.

William G. Cross has gone to Forest Home for an outing.

DAVIS ACQUITTED. Jack Davis, arrested recently for violation of the prohibition ordinance of the city, was acquitted in Judge Warren's court this morning. It took the jury only long enough to elect a foreman and take a ballot.

The arrest came about through a man telling the City Marshal that he "bought the best beer he ever drank" at Davis's place, whereupon the officer once arrested both. The testimony went to show that the beer was "temperance beer," and while it tastes like beer and looks like beer, is yet innocuous as soothing syrup as far as a jug is concerned.

The case against Mrs. David Davies has not come to trial.

REDLANDS BREVIETTES. A plague of typewriter and book agents has struck Redlands with more aggravated persistence than the hot wave. Business men are complaining of the pest.

Dr. C. A. Sanborn's wife and daughter left yesterday for an extended eastern visit. They will go to the exposition here returning.

Rain has been falling quite heavily in the mountains north and east of town today, and the heat is not nearly so great.

Miss Myrtle Gilman, a graduate from the High School this year, will teach at the Redlands school.

Dr. William Smith has returned to Oak Glen, where he will spend the remainder of the summer.

H. C. "Flash" McNeill and wife have gone to Catalina for a vacation.

William G. Cross has gone to Forest Home for an outing.

REDLANDS. July 10.—[From The Times' Resident Correspondent.] N. W. Lamb, a carpenter, became insane last night, and started on a kidnapping expedition, the object of his attention being Miss Mabel Watson, a pretty nineteen-year-old girl who works in her mother's lodging-house over the post office.

He found the girl in the kitchen, closed the door and said: "I've come after one of your daughters. I want the oldest one, Mabel. I am worth \$50,000, and I'm going to Buffalo on a double-seated sleigh with her tonight. Where is she?"

Lamb's demeanor frightened Mrs. Watson, who thought he was drunk. She managed to tell him, however, that her daughter was out. Lamb did not believe her statement, and went to the girl's room, searching it. The girl was in the dining-room, and evaded him. Lamb finally left.

After more searching on his wheel the crazy man disappeared. At 8 o'clock he showed up again at the Watson place, and the girl was hidden in another room. Mrs. Watson called to the room formerly occupied by Mabel Watson. Finding this empty, he made a thorough search. He began shouting and violence, and Mrs. Watson had difficulty in quieting him. She eventually convinced him that the girl was not in the house, and he left.

Once on the street Lamb's vagaries took a new turn. He imagined that he owned the town, and now that he was free, he intended to do as he pleased. He entered Thomas Cooper's cigar stand, and in spite of the resistance of the attendant, took a number of boxes of cigars and distributed them gratuitously among bystanders. Then he was arrested.

Lamb made a statement that he had been told by a man named "Tommy" that the city was for sale, and that he was to be the owner. He was taken to the Sheriff's office this morning for examination as to his sanity.

Lamb is about 33 years old, and is not known to have any relations near Redlands. The only reason assigned for his sudden lapse into insanity is cigarette smoking, for which he had a great passion.

DAVIS ACQUITTED. Jack Davis, arrested recently for violation of the prohibition ordinance of the city, was acquitted in Judge Warren's court this morning. It took the jury only long enough to elect a foreman and take a ballot.

The arrest came about through a man telling the City Marshal that he "bought the best beer he ever drank" at Davis's place, whereupon the officer once arrested both. The testimony went to show that the beer was "temperance beer," and while it tastes like beer and looks like beer, is yet innocuous as soothing syrup as far as a jug is concerned.

AT THE THEATERS.

BURBANK—A Bachelor's Romance. ORPHEUM—Vaudeville. HAZARD'S PAVILION—Under Two Flags.

THE TIMES AT THE BEACHES.

Patrons of The Times desiring the paper delivered to them at any of the beaches may leave the necessary order at The Times office, or with any of the following named agents:

E. L. Jackson, Santa Monica, 236 Third street.

Mrs. Thacker, Ocean Park, corner Hill and Second streets.

F. J. Schinnerer, Long Beach, Bank Building.

F. W. Clark, Catalina, foot of wharf, Redondo.

Mrs. D. Samples, postoffice, Terminal Island.

Bauter & Krohn, Sixth and Beacon streets, San Pedro.

Arrangements have been made for special summer delivery of The Times at all resorts, and patrons will confer a favor by reporting any irregular or unsatisfactory service.

THE TIMES-MIRROR COMPANY.

NEWS AND BUSINESS.

Howard to Speak.

Dr. E. Howard, formerly pastor of the First Presbyterian Church of this city, will deliver a lecture at the Echo Park Hotel Tuesday evening on "Eden and Democracy."

Verdict of Accident.

The coroner held an inquest yesterday on the body of Earl Tift, who was drowned the day before in the lake at Echo Park. The jury returned a verdict of accidental death.

To Go to Riverside.

The directors of the Chamber of Commerce yesterday afternoon voted to accept the invitation to go to Riverside on the occasion of the laying of the cornerstone of the new Indian school.

Battered a Chinaman.

R. Stoll was found guilty of battery in Justice Morgan's court yesterday and fined \$10, which he paid. He had a dispute with a Chinaman at the Ninth-street market on June 27 and knocked the latter down.

Stamp Spoiler.

A new Hay-Dolphin canceling machine is being installed at the postoffice. It is the best and fastest machine ever used in the local office, having a capacity of 40,000 letters an hour. The old Barry machine goes to Station C.

Lost a Finger.

William Cheesboro of No. 508 Stephenson avenue was treated at the Receiving Hospital yesterday for an injury to his left hand caused by getting it caught under a stone roller. The end of one of his fingers had been mashed off.

Gashed His Leg.

R. L. Bell, a contractor who lives at No. 908 East Third street, was painfully injured yesterday while using a broadax. The tool slipped and the blade struck him on the left leg below the knee, cutting a long gash. The wound was sewed up at the Receiving Hospital.

Neglected Reservoir.

The fence inclosing the old reservoir on Sixth street, in the rear of the Creed property, has fallen down and for a month past has lain sprawling over the sidewalk. The reservoir is loaded up with green slime and fifth. If anyone has charge of that property he is not attending to it.

Case Continued.

The case against Henry Miller, charged with having battered Patrolman Dixon while the latter was trying to keep him out of the bathhouse at Echo Park, was to have been tried in Justice Morgan's court yesterday, but at the request of the defendant it was continued until the 25th inst.

Shabby Street.

Sixth street, between Broadway and Hill, has become so worn out and full of holes that people driving are forced to go to Seventh street. It is a disgrace to allow our prominent streets to become so shabby. Proceedings should be commenced for repaving parts of Broadway and Sixth street.

House of Soap.

In the window of the Coulter dry-goods store is a reproduction of the Woman's Club House in soap. It was made by the Los Angeles Soap Company, is fifteen feet long by seven feet wide, and is a perfect representation of the model, requiring for its construction 5000 pounds of good soap. It is the latest Los Angeles wonder.

Hill-street Prosperity.

George E. Hunterberger yesterday sold the Marjorie W. Holmes property, corner of Seventh and Hill streets, to an eastern buyer for \$41,000. The property is \$25,000 less, on the northeast corner, and contains five two-story flats. It was bought as an investment and no changes in the buildings are contemplated at present.

For Epworth League.

Delegates to the Epworth League convention in San Francisco will be welcomed while in Los Angeles by a local committee in the rooms of the Chamber of Commerce, where a bureau of information has been established for the visitors' convenience. Today, tomorrow and Saturday afternoon, the committee will be on hand all day. A reception will be tendered Saturday evening until 10.

Funeral of Mrs. Greenman.

Rev. Joseph M. Smith, pastor of the First Baptist Church, assisted by Rev. Will A. Knight, conducted the religious services at the funeral of Mrs. Minnie J. Greenman, principal of the Hayes-street school, yesterday forenoon at Masonic Temple, Chapter 21, Order of Eastern Stars, had charge of the burial service at Riverside cemetery, where the interment took place. A quartette composed of Mrs. Stivers and Tessie and Maudie Poshay and Gamble rendered appropriate music.

Inquest Today.

The coroner's inquest into the death of Ed Garrity, who was run over by a Santa Fe freight train in the Bloomington yards Tuesday afternoon, will be held this morning at the family residence. Great difficulty has been experienced by the coroner in summoning witnesses. The men who were in charge of the train say they did not know anything about the accident until hours after it had happened. All of them were on the train at the time and did not even see the boy who was run over.

From Williams.

Rev. W. C. Geyer, pastor of the Methodist Episcopal Church at Williams, Ariz., arrived in Los Angeles yesterday to spend a two-week vacation. Rev. Mr. Geyer states that Williams is rapidly building again, after the fire. The citizens have incorporated and a new edition will be put in as well as many other necessary improvements. The wholesale trade of Los Angeles did very much toward encouraging many of the

BREVITIES.

Send donations of cast-off clothing, furniture or food supplies to the Good Samaritan department of the Bethlehem Institutional Church, 719 and Ducommun street, or telephone John 38, and wagon will call. Office hours during summer months 11 to 12 daily.

By time or arrival and departure of Santa Fe trains see "Time Card" in today's Times.

Slumber Robe will be disposed of at 119 W. Third street, Saturday, 2 p.m. Whitney Trunk Factory, 228 S. Main.

There are undelivered telegrams at the Western Union telegraph office for Le Roy A. Sell and A. S. Kimbly.

CHEEKIEST BURGLAR THAT EVER WAS.

His Victim So Amazed That He Let Him Escape Without a Word of Protest—Queer Case on Pasadena Avenue.

A daylight burglar who almost breaks the record for nerve has just come to light, and his escape from a term in jail is due only to the kindness or thoughtlessness of his captor. His next job, however, may land him behind the bars.

Tuesday morning, William Klusterhuse, who lives at No. 4212 Pasadena avenue, and returned home about 10 o'clock. He found his front door unlocked.

When he walked in he was astonished to see his bedroom door open, and a man's head pop out.

The owner of the head next appeared, and Klusterhuse asked him what he was doing there. The fellow very calmly asked Klusterhuse if he did not want to rent his house, and was curiously told that the place was not for rent.

The owner then asked if the stranger had any of the Klusterhuse money in his pockets, and the stranger said he had, and thereupon showed out a few dollars. He further added that he was not where he belonged, and the owner could knock him down and kick him if he wanted to, as he was guilty.

He explained his actions by saying that he was out of money, and could not work, and with a few more words stated out.

Klusterhuse followed, and remarked to the fellow that he wore very good clothes for a man who could not work. About this time he recognized his own clothes on the cheeky stranger, and made him go back in the house and take them off and don his own, which he had thrown under a bed. After he completed his toilet he was allowed to leave, and lost no time about it.

Klusterhuse was so amazed at the man's nerve that he forgot to arrest him, and can only describe him as a young man of slight build, wearing a dark coat and vest and blue overalls. His description has been of little use to the police.

RESTAURANT ROBBERY.

Two Supposed Sailors Ransack a Long Beach Eating-house and Secure Considerable Money.

Two men, supposed to be sailors, broke open and robbed Hoff's restaurant at Long Beach at 3:30 o'clock last night. They searched the place thoroughly and took all the money the proprietor had left there, something over \$100. They then left Long Beach, going supposedly in the direction of San Pedro. One of the men suspected of the burglary had worked in the restaurant for some time, but had recently been discharged. He knew the place thoroughly, and was able to locate the proprietor's cash.

CHILD'S LEG BROKEN.

The two-year-old daughter of F. Lambert, a blacksmith who lives on Brooklyn Heights, fell from a porch last night and fractured her right leg between the knee and the hip. Late in the morning she was taken to the Receiving Hospital and the Police Surgeon reduced the fracture. Lambert stated that he had taken the child to a physician on Brooklyn avenue, but the latter declined to attend to it, which Lambert says he proffered, the physician demanding \$10.

YOUNGERS ARE PAROLED.

ST. PAUL (Minn.) July 10.—The State Parole Board today approved the parole of Cole and James Younger, who have been in the Stillwater penitentiary for the past twenty-five years for complicity in the robbery and murder at the time of the raid on the Northfield, Minn., bank.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

Douglas Sayre, aged 42, a native of Illinois, and Flora Burghland, aged 34, a native of Indiana, both residents of Los Angeles.

John P. Crawford, aged 23, a native of Virginia, and Marjorie Weir, aged 18, a native of Pennsylvania, both residents of San Dimas.

William Henry Fulford, aged 37, a native of Canada, and Lily Elizabeth E. Prince, aged 23, a native of Ohio, both residents of Los Angeles.

John E. Redmund, aged 39, a native of California, and Mary E. Prince, aged 23, a native of California, both residents of Los Angeles.
